EXECUTIVE SUMMARY

Product Architect, Principal Systems Designer, and Business Operations Lead (MBA, UNC Chapel Hill Kenan-Flagler; MFA, Emerson College) with 15+ years leading systems in regulated environments where mistakes cost millions. Operates as a surgical "studio of one"—modeling relational and graph data schemas from first principles, crafting interfaces with Swiss grid discipline, and shipping working TypeScript, Next.js, and native prototypes with AI acceleration in days instead of quarters. Track record spans UnitedHealth Group's flagship patient mobile apps (35M+ patients, 400K+ employees, $100M+ Apple Health revenue impact), Walmart's GraphQL enterprise workforce search (3M direct users), founding product design for Custodia Bank (chartered Wyoming SPDI bank, 4-day rebrand and 30-day core banking platform launch covering Fedwire fiat rails, Money Market yield, and multi-sig Bitcoin UTXO custody), and directing Business Operations at Foodler ($500M+ order volume, 83% fraud reduction, 10x exit to Grubhub).

CORE COMPETENCIES & TECHNICAL ARCHITECTURE

Interface Engineering & Design Systems: TypeScript, Next.js (App Router), React 18/19, Tailwind CSS, Framer Motion, Radix UI, shadcn/ui, Enterprise Design Systems, Design Tokens, Swiss 8pt Grid Architecture, Apple HIG, Material Design, Figma, Storybook, High-Fidelity Prototyping

Systems, Edge & Data Modeling: PostgreSQL, LibSQL / SQLite, DuckDB-WASM, Apache Arrow, Zod, REST & GraphQL APIs, Graph Databases, Drizzle ORM, Zero-Knowledge Client Analytics, Complex Data Modeling, Ledger & Settlement State

AI Acceleration, Native & Pipeline Runtimes: Claude & Gemini APIs, Structured Outputs (JSON), WebGPU, Transformers.js, Agentic Tool-Calling, Local Vector Embeddings, Tauri 2.0, Rust, Swift / SwiftUI, Python (Data/ETL), Node.js, Express.js, Vite, Git/GitHub, Cursor, Claude Code

Executive Operations & Regulated Domains: 0-to-1 Product Architecture, Technical Product Management (TPM), Chief of Staff & Business Operations (BizOps), Regulated Fintech (Fedwire, Money Market, Bitcoin UTXO Custody, KYC/KYB, BSA/AML), HIPAA Enterprise Healthcare, Fraud Detection & Chargeback Mitigation

SELECTED IMPACT HIGHLIGHTS

- **Chartered Fintech & Institutional Custody (Custodia Bank):** First and only designer at a chartered Federal Reserve Special Purpose Depository Institution; shipped the ground-up rebrand and web platform in 4 days and the core banking application in 30 days ahead of Federal Reserve evaluation, unifying Fedwire fiat rails, Money Market yield accrual, and multi-sig Bitcoin UTXO management.
- **National Healthcare Scale & $100M+ Revenue Impact (UnitedHealth Group / Optum):** Principal designer in an internal executive consulting team for UHG's flagship native iOS and Android patient apps (35M+ patients, 400K+ employees); championed Apple Health integration driving an estimated $100M+ in personal revenue impact while producing 80%+ of Android and 50%+ of iOS screens to lift ratings from sub-2 stars to high-4 tier.
- **Enterprise Graph Search for 3M Workers (Walmart via PredictiveUX):** Architected the GraphQL and graph-database enterprise search paradigms and Content Distribution Platform (CDP) for the world's largest private workforce (3M direct users) across global retail terminals.
- **High-Volume Marketplace Operations & 83% Fraud Reduction (Foodler / Grubhub Exit):** Rose to Director of Business Operations managing two-thirds of company functions across $500M+ in order volume; engineered a proprietary fraud detection system that cut chargebacks by 83% ($6M to under $1M) alongside local police and the FBI, driving a 10x revenue exit to Grubhub.

PROFESSIONAL EXPERIENCE

Colon Hyphen Bracket, LLC | **Founder, Product Architect & R&D Lead** — **DEC 2018 - PRESENT**

- **Pipes Multi-Platform Knowledge Protocol (Web, macOS, iOS):** Designed, architected, and built solo from zero to production—a native macOS desktop app (Tauri 2.0 / Rust), native iPhone capture app (Swift / SwiftUI), and Next.js / TypeScript web marketplace running local-first AI and SQLite vector embeddings with zero per-query cloud cost.
- **Marigold Zero-Knowledge Analytics & Greater-Than WebGPU AI:** Architected and open-sourced Marigold (github.com/rorshockbtc/marigold), executing in-browser Fellegi-Sunter record linkage and civic-data auditing across 500k+ records via DuckDB-WASM and Apache Arrow; shipped Greater-Than (github.com/rorshockbtc/greater-than), a browser-local AI support agent powered by WebGPU and Transformers.js.
- **Autonomous Trading & AI Triage Systems:** Solo-designed, engineered, and deployed an automated market-making and high-frequency liquidity bot platform for Polymarket, a persistent-memory AI companion (Semi), and Cassandra, an autonomous AI job triage and career intelligence system.
- **Surgical 1-Week Architecture Sprints & Advisory:** Deliver zero-to-one data schema modeling, interactive code prototypes, and regulated product architecture for fintech, healthcare, and enterprise R&D teams via a turnkey Wyoming LLC (B2B/1099).

Custodia Bank, Inc | **Lead Product Designer (First Design Hire)** **JAN 2022 - SEP 2024**

- **30-Day Core Banking & Custody Launch:** Joined as the first and only designer at a chartered Wyoming SPDI bank; took the platform from rough internal tools to a complete institutional banking suite covering Fedwire fiat rails, Money Market yield accrual, programmable interbank settlement, and multi-sig Bitcoin UTXO custody in 30 days ahead of Federal Reserve master account review.
- **4-Day Rebrand & Enterprise Design System:** Executed the ground-up company rebrand solo in 4 days (including art direction and hand-drawn brand marks) and built the component design system and UCD/API workflows across compliance, ops, and finance.
- **100+ Rapid Prototyping Sprints:** Served on the launch and growth team for every bank product, facilitating 100+ rapid prototyping sprints and design workshops directly with engineering and executive leadership.

PredictiveUX | **Senior UX/UI Architect (Walmart & RecoverX)** **OCT 2021 - OCT 2022**

- **Walmart Enterprise Graph Search (3M Users):** Led UX and information architecture for Walmart's internal enterprise search and Content Distribution Platform (CDP) serving 3 million employees, replacing legacy keyword lookups with GraphQL and graph-database discovery for career pathways and compliance certifications.
- **Clinical Decision Support (RecoverX):** Architected diagnostic clinical decision-support tools and AI-assisted triage workflows supporting physicians in high-acuity care settings.

Optum & UnitedHealth Group | **Senior Product Experience Designer (Principal Mobile Lead)** **JAN 2020 - OCT 2021**

- **Flagship Patient Mobile Suite (35M+ Patients):** Operated within an elite, internal McKinsey-style executive consulting group as Principal Designer for UHG's flagship native iOS and Android applications serving 35M+ patients and 400K+ employees; personally produced 80%+ of Android screens and 50%+ of iOS screens, rescuing app store ratings from sub-2 stars to the high-4 tier.
- **$100M+ Apple Health Integration:** Facilitated executive service-design workshops and championed UHG's enterprise adoption of Apple Health guidelines and native integrations, generating an estimated hundreds of millions in personal revenue impact.

BLDG-25 | **Design Director** **JAN 2018 - DEC 2019**

- **Fidelity Investments & Martin Marietta:** Directed a team of 3 designers and managed key enterprise accounts; spent 2 years embedded at Fidelity Investments in Raleigh as primary client liaison to architect their first cloud-native app launch, and led the complete rework of Martin Marietta's internal inventory tooling.
- **Nation-State Cybersecurity (IronNet):** Designed complex enterprise RBAC roles-and-permissions frameworks for IronNet and former NSA Director Gen. Keith Alexander, securing mission-critical device infrastructure globally.

UltraLinq Healthcare Solutions | **Design Director** **JAN 2016 - DEC 2017**

- **Zero-to-One Medical Telemetry & Cloud PACS:** Founded and managed the internal product design team, building design systems from scratch for cloud web platforms, diagnostic medical devices, and wearable health monitors.
- **HIPAA Compliance & Clinical Research:** Shipped multiple HIPAA-certified hardware and software products, leading user research in clinical settings and formal FDA/healthcare usability compliance testing.

Foodler.com (Acquired by Grubhub) | **Director of Business Operations** **JAN 2010 - DEC 2015**

- **Executive Operations ($500M+ Volume):** Started as a Customer Service Rep and within 18 months rose to run two-thirds of the company's functions—including billing, customer support, and Tier 1–2 technical support—overseeing $500M+ in cumulative order volume.
- **83% Fraud Reduction & 10x Exit:** Engineered a proprietary fraud detection system that cut chargebacks by 83% (from $6M to under $1M), working directly alongside local police departments and the FBI on sting operations, and helped drive 10x revenue growth through to the Grubhub acquisition.

EDUCATION

Master of Business Administration (MBA) — Business Strategy & Accounting — **University of North Carolina at Chapel Hill (Kenan-Flagler)**

Master of Fine Arts (MFA) — Storytelling & Creative Writing — **Emerson College**

Bachelor of Arts (BA) — Writing & Literature in Honors Studies, Summa Cum Laude — **Texas Tech University**
