EXECUTIVE SUMMARY

Principal Product Designer, Design Systems Lead, and UX Architect (UNC Kenan-Flagler MBA, Emerson MFA) with 15+ years of experience partnering with C-suite, PM, and engineering leaders to ship zero-to-one enterprise, fintech, healthcare, and AI-native platforms across Web (React/Next.js/TypeScript), macOS Desktop (Tauri/Rust), and Native Mobile (iOS HIG / SwiftUI & Android Material Design / Jetpack Compose). Combines rigorous user research, information architecture, and tokenized Figma component systems with hands-on design-to-code execution. Track record includes founding product design at Custodia Bank (core banking & institutional custody shipped in 6 weeks), rescuing flagship mobile UX for 35M+ patients at UnitedHealth Group & Optum ($100M+ Apple Health revenue impact), leading enterprise search UX for 3M+ associates at Walmart Global Tech, and scaling operations at Foodler ($500M+ volume, 83% fraud reduction, acquired by Grubhub).

CORE COMPETENCIES & TECHNICAL STACK

Product Design & Systems Craft: End-to-End Product Design (0-to-1 & Enterprise Scale), Tokenized Design Systems & Component Libraries, Figma (Variables, Auto Layout, Interactive Prototyping), Wireframing, Information Architecture (IA), User Research & Usability Testing, Accessibility (WCAG 2.2 AA), Cross-Functional Engineering & PM Collaboration.

Multi-Platform & Design-to-Code Execution: Responsive Web Applications, Native iOS (Apple HIG / SwiftUI) & Android (Material Design / Jetpack Compose), Desktop IDE UX, Design-to-Code Prototyping (TypeScript, React 18/19, Next.js, Tailwind CSS, Storybook, HTML5/CSS3, Git / PR Review), AI-Native Design Workflows (Cursor, Claude Code, v0).

Domain Expertise: Regulated Fintech, Core Banking & Digital Asset Custody (Fedwire, ACH, BSA/AML, Multi-Sig Workflows), Patient-Facing Digital Health & HIPAA Clinical Decision Support, Enterprise Search & Knowledge Graphs, High-Density Analytics & Data Visualization.

Leadership & Strategy: Design Direction & Team Mentorship, Executive Stakeholder Alignment, Google Design Sprints, Service Design Blueprinting, KPI/OKR Experimentation & Conversion Optimization.

PROFESSIONAL EXPERIENCE

Colon Hyphen Bracket R&D (Independent Lab — Full-Time Focus Sep 2024–Present) | **Principal Product Designer & Design Systems Architect** | **DEC 2018 - PRESENT**

- **Multi-Platform AI & Design System Architecture (Pipes Protocol — pipes.pink):** Designed and shipped a cohesive multi-platform design system spanning a Next.js web marketplace, native iOS (SwiftUI) and Android (Jetpack Compose) mobile apps, a Tauri 2.0 / Rust macOS desktop workspace, and interactive multilingual learning flows across 90+ languages.
- **High-Density Analytics & Data Visualization UX (Marigold Insights):** Designed and prototyped a zero-latency browser analytics workbench (DuckDB-WASM + Web Workers) rendering 2,000,000+ financial and civic records at 60fps with intuitive entity-resolution inspection and privacy-preserving workflows.
- **Conversational & Agentic AI Interfaces (Greater-Than & Superstar):** Crafted human-centered interaction patterns, streaming states, and multi-model reasoning workspaces for browser-local WebGPU support agents and dual-LLM research tools.

Custodia Bank, Inc | **Lead Product Designer (First Design Hire)** | **JAN 2022 - SEP 2024**

- Founded the product design and UX systems practice as first design hire for a chartered Wyoming SPDI digital asset and commercial bank ($70M+ raised), partnering closely with executive leadership, PMs, compliance, and engineering from initial concept to regulated production launch.
- Delivered an institutional rebrand in 4 days, an interactive Federal Reserve core banking prototype in 30 days, and a tokenized Figma-to-React enterprise design system in 6 weeks—accelerating multi-squad engineering velocity across 100+ sprints for 18 months.
- Led end-to-end user research, workflow architecture, and usability validation for commercial fiat wires (Fedwire/ACH), multi-signature custody approvals, real-time settlement (Avit), and internal BSA/AML compliance and treasury consoles.

PredictiveUX (Advisory Contract — Walmart Global Tech) | **Senior UX/UI Architect** | **OCT 2021 - OCT 2022**

- Led UX strategy, information architecture, and design system patterns for Walmart's flagship internal enterprise search platform, improving discovery relevance and task completion across 3,000,000+ global associates.
- Designed clinical decision support and diagnostic workflow interfaces (RecoverX), translating complex medical ontologies into low-cognitive-load clinician experiences.

Optum & UnitedHealth Group | **Senior Product Experience Designer** | **JAN 2020 - OCT 2021**

- Operated within an internal executive experience and R&D group, facilitating cross-functional service design workshops with C-suite, clinical, and product stakeholders across Fortune 5 healthcare ecosystems.
- Served as Principal Mobile Designer for flagship native iOS and Android patient applications serving 35M+ patients and 400K+ employees (owning 80% of Android and 50% of iOS workflows) while stabilizing a 75M-user platform transition.
- Led UX prototyping and executive alignment for native Apple Health and HealthKit adoption over custom builds, driving an estimated $100M+ in revenue impact and measurable patient engagement gains.

BLDG-25 | **Design Director** | **JAN 2018 - DEC 2019**

- Directed, hired, and mentored a cross-functional team of product designers while leading enterprise UX modernization for Martin Marietta's nationwide inventory and logistics platform.
- Embedded for 2 years with Fidelity Investments' Raleigh R&D center as lead UX partner, facilitating executive discovery sprints and designing their first cloud-native customer application.
- Architected enterprise RBAC permissions and real-time threat-intelligence visualizations for IronNet Cybersecurity, supporting mission-critical SOC analyst workflows.

UltraLinq Healthcare Solutions | **Design Director** | **JAN 2016 - DEC 2017**

- Built and managed the internal product design team, establishing unified design systems across cloud PACS medical imaging web apps, telehealth workflows, and wearable cardiac telemetry hardware.
- Conducted contextual hospital field research with cardiologists and sonographers and led formal FDA human-factors and HIPAA usability validation.

Foodler.com (Acquired by Grubhub) | **Director of Business Operations** | **JAN 2010 - DEC 2015**

- Promoted to Director of Business Operations within 18 months, leading cross-functional marketplace operations, support UX, billing, and partner tooling across $500M+ in cumulative order volume.
- Designed and deployed a deterministic risk-scoring and fraud-prevention workflow that reduced credit card chargebacks by 83% ($6M to <$1M annually), contributing directly to a 10x revenue expansion and acquisition by Grubhub.

EDUCATION

Master of Business Administration (MBA) — Business Strategy & Accounting | University of North Carolina at Chapel Hill (Kenan-Flagler Business School)

Master of Fine Arts (MFA) — Storytelling & Creative Writing | Emerson College

Bachelor of Arts (BA) — Writing & Literature in Honors Studies, Summa Cum Laude | Texas Tech University
