KYLE CYREE

Chief of Staff & Director of Business Operations | Strategic Systems Architect (MBA, MFA)

Raleigh, NC (Remote) | US Citizen | Portfolio: https://hire.colonhyphenbracket.pink | GitHub: https://github.com/rorshockbtc | Email: rorshock@protonmail.com

EXECUTIVE SUMMARY

Executive Chief of Staff, Director of Business Operations (BizOps), and Principal Systems Architect (UNC Kenan-Flagler MBA in Business Strategy & Accounting, Emerson MFA) with 15+ years of experience scaling high-growth marketplaces, regulated financial institutions, and Fortune 5 enterprise operations. Combines C-suite strategic planning, P&L unit economics, and regulatory compliance (OCC/FDIC, BSA/AML, HIPAA) with hands-on technical execution—building custom AI automation harnesses, SQL/DuckDB-WASM data pipelines, and operational tooling without waiting on engineering backlogs. Proven track record overseeing two-thirds of company operations at Foodler ($500M+ volume, 83% chargeback reduction saving $5M+ annually, 10x revenue expansion to Grubhub acquisition), facilitating McKinsey-style C-suite service design at UnitedHealth Group ($100M+ revenue impact across 35M+ patients), and launching core banking and compliance ops consoles at Custodia Bank ($70M+ raised).

CORE COMPETENCIES & TECHNICAL STACK

- **Executive Strategy & BizOps:** Chief of Staff & Founder's Office Execution, P&L Ownership & Unit Economics, Cross-Functional Org Scaling, Board & Regulatory Readiness (Federal Reserve, OCC/FDIC, HIPAA), Enterprise Risk & Fraud Engineering, M&A & Post-Merger Operational Integration.
- **Operational Systems & Analytics:** SQL & In-Browser Data Warehousing (DuckDB-WASM, PostgreSQL, BigQuery), Probabilistic Entity Resolution (Fellegi-Sunter), Internal Tooling & Treasury/BSA/AML Consoles, Automated AI Workflows & Agentic Process Engineering.
- **Technical Stack:** SQL, Python, TypeScript, Next.js, React, Node.js, DuckDB-WASM, Apache Arrow, PostgreSQL, Drizzle ORM, GraphQL, Tauri 2.0, Rust, Excel / Financial Modeling, Git / GitHub.
- **Leadership & Methodology:** McKinsey-Style Executive Service Design, C-Suite Workshop Facilitation, Vendor & Partner Negotiations, Crisis Stabilization & Turnaround Management, High-Velocity Written Communication.

THE "UNIT OF ONE" OPERATING LOOP

- **01. Executive & Regulatory Strategy:** Applies UNC Kenan-Flagler MBA rigor to untangle OCC/FDIC banking compliance, HIPAA clinical workflows, and B2B unit economics before writing a spec.
- **02. First-Principles Data Modeling:** Designs relational schemas (PostgreSQL, Drizzle, GraphQL), local-first DuckDB-WASM engines, and zero-PII cryptographic boundaries before touching pixels.
- **03. Swiss Grid & Interaction Craft:** Builds mathematical Massimo Vignelli layouts and Josef Albers perceptual color systems that make dense institutional telemetry feel effortless.
- **04. AI-Accelerated Shipping:** Uses advanced prompt and grammar-constrained harness engineering to turn operational specs directly into working internal tools, analytics pipelines, and production software with zero handoff loss.

SELECTED IMPACT HIGHLIGHTS

- High-Volume Marketplace Operations & 10x Exit (Foodler — Acquired by Grubhub): Promoted from Customer Service Representative to Director of Business Operations in 18 months, overseeing two-thirds of company operations across $500M+ in order volume. Engineered a deterministic fraud detection system that cut credit card chargebacks by 83% ($6M to <$1M annually) in coordination with local PD and the FBI, driving a 10x revenue exit.
- **Chartered Bank Regulatory & Treasury Operations (Custodia Bank):** First design and systems hire for a chartered Wyoming SPDI full-reserve bank ($70M+ raised). Delivered the 30-day Federal Reserve core banking prototype and architected internal BSA/AML compliance, finance, wire settlement (Fedwire/ACH), and Bitcoin custody operations consoles.
- Fortune 5 Executive Consulting & $100M+ Revenue Impact (UnitedHealth Group & Optum): Operated within an elite internal McKinsey-style executive consulting group, facilitating C-suite service design workshops, stabilizing a 75M-user mobile ecosystem after a team walkout, and championing Apple Health integration for $100M+ in personal revenue impact.
- **Zero-PII Financial & Civic Audit Engine (Marigold Insights):** Architected a browser-local analytics workbench powered by DuckDB-WASM and Web Workers querying 2,000,000+ records in-browser with zero cloud egress and deterministic Fellegi-Sunter entity resolution (1,000 pairs in 10.2ms).
- Sovereign AI & Multi-Platform Operations (Pipes Protocol — pipes.pink): Built a complete creator marketplace with automated 70/30 royalty settlement, local LLM desktop tooling (Tauri 2.0 / Rust), and global educational distribution across 90+ languages.

PROFESSIONAL EXPERIENCE

Colon Hyphen Bracket R&D — Pipes Protocol & Marigold Insights | Principal Product Architect & Operations Lead | SEP 2024 - PRESENT

- **Zero-Egress Financial & Civic Analytics (Marigold Insights):** Architected an in-browser DuckDB-WASM and OPFS analytics engine processing 2,000,000+ records locally with deterministic Fellegi-Sunter probabilistic record linkage and cryptographic PII shielding for institutional compliance auditing.
- Sovereign Marketplace & Automated Royalty Operations (Pipes Protocol — pipes.pink): Built a multi-platform knowledge marketplace with automated 70/30 creator royalty settlement, the ! BANG Tauri 2.0 / Rust macOS Desktop IDE for local LLM operations, and global curriculum infrastructure for My First Bitcoin across 90+ languages.
- **Autonomous Operations & Compliance Tooling:** Engineered browser-local WebGPU customer support automation (greater-than) with $0 server inference cost and compliant regional partner audit logging systems.

Custodia Bank, Inc | Lead Product Designer (First Design Hire) | NOV 2021 - AUG 2024

- Partnered directly with the CEO, CPO, Chief Legal Officer, and engineering leadership at a chartered Wyoming SPDI full-reserve bank ($70M+ raised) to translate Federal Reserve and Wyoming Division of Banking regulatory mandates into auditable operational software.
- Delivered a core banking application prototype for Federal Reserve regulators in 30 days and a complete institutional design system in 6 weeks—enabling the bank to operate for 18 months with 0 additional design hires.
- Architected end-to-end internal operations consoles for BSA/AML compliance, treasury management, Fedwire/ACH settlement, segregated multi-sig Bitcoin UTXO custody, and real-time interbank settlement (Avit) across 100+ sprints.

PredictiveUX (Embedded at Walmart Global Tech) | Senior UX/UI Architect | AUG 2020 - OCT 2021

- Led enterprise search UX and GraphQL/graph-database discovery workflows for Walmart's internal associate platform serving 3,000,000+ employees globally.
- Architected clinical decision support and diagnostic operations workflows (RecoverX) for high-acuity healthcare environments.

Optum & UnitedHealth Group | Senior Product Experience Designer | JAN 2020 - OCT 2021

- Operated within an elite internal McKinsey-style executive consulting and R&D group, facilitating cross-functional service design and operational strategy workshops for C-suite and VP leadership across Fortune 5 healthcare units.
- Stepped in during an unexpected team transition to stabilize flagship mobile operations serving 35M+ patients and 400K+ employees (owning 80% of Android and 50% of iOS screens).
- Built the business and technical case for native Apple Health integration over custom builds, generating an estimated $100M+ in personal revenue impact.

BLDG-25 | Design Director | JAN 2018 - DEC 2019

- Directed client account operations and a team of 3 designers, leading the nationwide modernization of Martin Marietta's internal inventory and logistics platform.
- Embedded for 2 years at Fidelity Investments' Raleigh R&D center as primary client liaison, facilitating executive alignment workshops and architecting their first cloud-native application launch.
- Designed enterprise RBAC governance and threat-intelligence frameworks for IronNet Cybersecurity and General Keith Alexander (former NSA Director).

UltraLinq Healthcare Solutions | Design Director | JAN 2016 - DEC 2017

- Founded and managed the internal product design practice, leading FDA/HIPAA compliance testing, hospital field research, and zero-to-one system delivery across cloud medical imaging and wearable cardiac telemetry.

Foodler.com (Acquired by Grubhub) | Director of Business Operations | JAN 2010 - DEC 2015

- Promoted from Customer Service Representative to Director of Business Operations within 18 months, overseeing two-thirds of company functions including billing, customer support, restaurant operations, and tier 1-2 technical support across $500M+ in order volume.
- Engineered a proprietary deterministic fraud detection and risk scoring system that reduced credit card chargebacks by 83% (from $6M to under $1M annually) while coordinating directly with local police departments and the FBI on cyber-fraud sting operations.
- Scaled operational unit economics and automated merchant/delivery workflows, directly contributing to a 10x revenue expansion and successful acquisition by Grubhub.

EDUCATION

- Master of Business Administration (MBA), Business Strategy & Accounting | University of North Carolina at Chapel Hill (Kenan-Flagler Business School)
- Master of Fine Arts (MFA), Storytelling & Creative Writing | Emerson College
- Bachelor of Arts (BA), Writing & Literature in Honors Studies, Summa Cum Laude | Texas Tech University
