KYLE CYREE

Principal Product Designer | Design Systems & Product Architect (MBA, MFA)

Raleigh, NC (Remote) | US Citizen | Portfolio: https://hire.colonhyphenbracket.pink | GitHub: https://github.com/rorshockbtc | Email: rorshock@protonmail.com

EXECUTIVE SUMMARY

Principal Product Designer, Design Systems Lead, and Product Architect (UNC MBA, Emerson MFA) with 15+ years of experience bridging executive product strategy, mathematical Swiss grid UI/UX craft, first-principles data modeling, and AI-accelerated frontend execution across Web (TypeScript/React/Next.js), macOS Desktop (Tauri 2.0/Rust), and Native Mobile (iOS/SwiftUI & Android/Jetpack Compose). Proven track record leading zero-to-one product design in chartered digital-asset banking (Custodia Bank core banking and Bitcoin custody platform in 6 weeks; zero additional design hires needed for 18 months), Fortune 5 healthcare scale (UnitedHealth Group & Optum flagship mobile apps for 35M+ patients and 400K+ employees, $100M+ Apple Health revenue impact), Fortune 1 enterprise discovery (Walmart Global Tech search for 3M+ associates), and high-volume marketplace operations (Foodler $500M+ volume, 83% chargeback reduction, 10x exit to Grubhub).

CORE COMPETENCIES & TECHNICAL STACK

- **Design & Systems Architecture:** Zero-to-One Product Design, Tokenized Design Systems & Component Libraries, Mathematical Swiss Grids (Massimo Vignelli) & Perceptual Color Systems (Josef Albers), Multi-Platform UI/UX (Web, iOS HIG, Android Material Design, macOS Desktop), Rapid High-Fidelity Prototyping, Accessibility (WCAG 2.2 AA).
- **Domain Expertise:** Chartered Banking & Institutional Digital Asset Custody (Fedwire, ACH, Multi-Sig UTXO), Fortune 5 Patient-Facing Healthcare & HIPAA Clinical Workflows, Enterprise Search & Knowledge Graphs, Local-First & Zero-PII Privacy Architecture.
- **Technical Stack:** TypeScript, React 18/19, Next.js (App Router), Tailwind CSS, Storybook, HTML5/CSS3, Node.js, Python, DuckDB-WASM, Apache Arrow, WebGPU, Tauri 2.0, Rust, Swift / SwiftUI, Kotlin / Jetpack Compose, PostgreSQL, Drizzle ORM, GraphQL, SQLite.
- **Tools & Methodology:** Figma, Sketch, Git / GitHub PR Workflows, AI-Native Design & Code Harnesses (Cursor, Claude Code, v0, Gemini), Service Design Blueprinting, Google Design Sprints, Executive Stakeholder Workshops.

THE "UNIT OF ONE" OPERATING LOOP

- **01. Executive & Regulatory Strategy:** Applies UNC Kenan-Flagler MBA rigor to untangle OCC/FDIC banking compliance, HIPAA clinical workflows, and enterprise unit economics before writing a spec.
- **02. First-Principles Data Modeling:** Models relational schemas (PostgreSQL, Drizzle, GraphQL), local-first DuckDB-WASM engines, and zero-PII cryptographic boundaries before touching pixels.
- **03. Swiss Grid & Interaction Craft:** Builds mathematical Massimo Vignelli layouts and Josef Albers perceptual color systems that make dense institutional telemetry feel effortless.
- **04. AI-Accelerated Shipping:** Uses prompt and grammar-constrained harness engineering to turn architectural specs and Figma systems directly into production TypeScript/Next.js, Python, and Rust software with zero handoff loss.

SELECTED IMPACT HIGHLIGHTS

- **Zero-to-One Chartered Digital Asset Bank (Custodia Bank):** First design hire and Lead Product Designer for a chartered Wyoming SPDI full-reserve bank. Executed a 4-day institutional rebrand, 30-day Federal Reserve core banking app prototype, and 6-week enterprise design system spanning fiat wires, institutional Bitcoin UTXO custody, and real-time settlement—requiring 0 additional design hires for 18 months across 100+ sprints.
- Fortune 5 Healthcare Crisis Rescue & Ecosystem Scale (UnitedHealth Group & Optum): Stabilized flagship mobile apps serving 35M+ patients and 400K+ employees (owning 80% of Android and 50% of iOS screens) and championed native Apple Health integration across UHG, driving an estimated $100M+ in personal revenue impact.
- Sovereign Knowledge Protocol & Multi-Platform IDE (Pipes Protocol — pipes.pink): Solo architected, designed, and shipped a 4-tier knowledge ecosystem spanning a Next.js/Cloudflare Web Marketplace, the ! BANG macOS Native Desktop IDE (Tauri 2.0 + Rust), native iOS (SwiftUI) and Android (Jetpack Compose) mobile apps, and the My First Bitcoin 31-node curriculum translated across 90+ languages.
- In-Browser Zero-PII Civic & Financial Data Engine (Marigold Insights): Designed and built a browser-local analytics workbench powered by DuckDB-WASM, OPFS, and multi-threaded Web Workers capable of querying 2,000,000+ records in-browser at 60fps with zero cloud egress and deterministic Fellegi-Sunter probabilistic record linkage (1,000 pairs in 10.2ms).
- **Fortune 1 Enterprise Search Architecture (Walmart Global Tech):** Led UX and GraphQL/graph-database search architecture for Walmart's internal enterprise search platform serving 3,000,000+ direct associates globally.

PROFESSIONAL EXPERIENCE

Colon Hyphen Bracket R&D — Pipes Protocol & Marigold Insights | Principal Product Architect & Systems Designer | SEP 2024 - PRESENT

- Sovereign Knowledge & Multi-Platform Design System (Pipes Protocol — pipes.pink): Architected, designed, and built a multi-platform knowledge protocol and creator marketplace featuring SHA-256 content-addressed context graphs, 25 canonical FOSS knowledge pipes, the ! BANG Tauri 2.0 / Rust macOS Desktop IDE, native iOS (SwiftUI) and Android (Jetpack Compose) mobile applications, and 90+ language interactive classrooms for My First Bitcoin.
- **Zero-Egress Analytics & Visual Telemetry (Marigold Insights):** Designed and engineered an in-browser DuckDB-WASM and OPFS analytics workbench processing 2,000,000+ civic and financial records at 60fps with deterministic Fellegi-Sunter probabilistic record linkage and zero PII cloud leakage.
- Browser-Local WebGPU AI & Multi-Agent Interfaces (Greater-Than & Superstar): Designed and shipped open-source browser-local support agents running via WebGPU and Transformers.js with zero server inference overhead, alongside dual-LLM reasoning interfaces.

Custodia Bank, Inc | Lead Product Designer (First Design Hire) | NOV 2021 - AUG 2024

- Founded the product design and UX systems practice as first design hire for a chartered Wyoming SPDI full-reserve digital asset bank ($70M+ raised), scaling from initial wireframes to a full institutional banking and custody suite.
- Delivered a complete company rebrand in 4 days, a core banking application prototype for Federal Reserve regulators in 30 days, and a comprehensive institutional design system in 6 weeks—enabling engineering to ship for 18 months with 0 additional design hires needed.
- Architected end-to-end UX and operational workflows for institutional fiat wires (Fedwire/ACH), segregated multi-sig Bitcoin UTXO custody, rapid interbank settlement (Avit), and internal compliance, BSA/AML, finance, and treasury ops consoles across 100+ rapid prototyping sprints.

PredictiveUX (Embedded at Walmart Global Tech) | Senior UX/UI Architect | AUG 2020 - OCT 2021

- Led UX and information architecture for Walmart's flagship internal enterprise search platform, establishing new search paradigms, GraphQL/graph-database query patterns, and behavioral workflows for 3,000,000+ direct associates.
- Architected clinical decision support and diagnostic workflow systems (RecoverX) translating complex medical ontologies into high-velocity clinician interfaces.

Optum & UnitedHealth Group | Senior Product Experience Designer | JAN 2020 - OCT 2021

- Operated within an elite internal McKinsey-style executive consulting and R&D group, facilitating complex service design workshops for C-suite and VP leadership across Fortune 5 healthcare operations.
- Served as Principal Designer for flagship native iOS and Android applications spanning 35M+ patients and 400K+ employees, maintaining direct ownership of 80% of Android screens and 50% of iOS screens while stabilizing a 75M-user ecosystem after an unexpected team transition.
- Championed UnitedHealth Group's adoption of native Apple Health guidelines and HealthKit integrations over brittle custom builds, generating an estimated $100M+ in personal revenue impact.

BLDG-25 | Design Director | JAN 2018 - DEC 2019

- Directed a team of 3 designers and managed key enterprise accounts, including leading the complete modernization of Martin Marietta's nationwide internal inventory and logistics tooling.
- Embedded for 2 years at Fidelity Investments' Raleigh R&D center as primary client liaison, facilitating executive workshops and architecting their first cloud-native application launch.
- Designed mission-critical RBAC roles, permissions, and threat-intelligence frameworks for IronNet Cybersecurity and General Keith Alexander (former NSA Director), impacting nation-state level network defense globally.

UltraLinq Healthcare Solutions | Design Director | JAN 2016 - DEC 2017

- Founded and managed the internal product design team, building zero-to-one design systems across cloud PACS web applications, diagnostic medical imaging tele-health platforms, and wearable cardiac monitors.
- Shipped multiple HIPAA-certified hardware and software medical products, leading contextual clinical research in hospital environments and formal FDA/healthcare compliance testing.

Foodler.com (Acquired by Grubhub) | Director of Business Operations | JAN 2010 - DEC 2015

- Promoted from Customer Service Representative to Director of Business Operations within 18 months, overseeing two-thirds of company operations including billing, customer support, restaurant ops, and tier 1-2 technical support across $500M+ in cumulative order volume.
- Engineered a proprietary deterministic fraud detection and risk scoring system that reduced credit card chargebacks by 83% (from $6M to under $1M annually) while coordinating directly with local police departments and the FBI on cyber-fraud investigations.
- Scaled operational unit economics and automated merchant/delivery workflows, directly contributing to a 10x revenue expansion and successful acquisition by Grubhub.

EDUCATION

- Master of Business Administration (MBA), Business Strategy & Accounting | University of North Carolina at Chapel Hill (Kenan-Flagler Business School)
- Master of Fine Arts (MFA), Storytelling & Creative Writing | Emerson College
- Bachelor of Arts (BA), Writing & Literature in Honors Studies, Summa Cum Laude | Texas Tech University
